Once you're done, cut the yarn, bring it to the back of the fabric, and carefully tuck it between the stitches.

MANGAS (X2)

Use Cinnamon colored thread.

Note: Both sleeves are knitted exactly the same; the only difference is where you start each one. Remember the two chains from row 3. Look at them carefully to identify which one to start with. Watch the video for a better understanding of row 1.

Cut the strands you want to add to the dress; you can use as many as you like. In my case, I added only one for each strand of the dress. Only take the front strands of the stitch and pay attention to the correct position for inserting the hook. I used a 1.5 mm hook, as it was more comfortable for me, but you can use any number that suits you best.

Using 1mm thick yarn and a 1.50mm hook, I slip stitched as close to the first layer of fringe as possible.

[link to the video](#)

The last slip stitch is made right where this detail began. Then, cut the yarn, pull it out, and bring it to the inside of the dress, where you can knot it with the starting yarn to secure it and, finally, hide both.

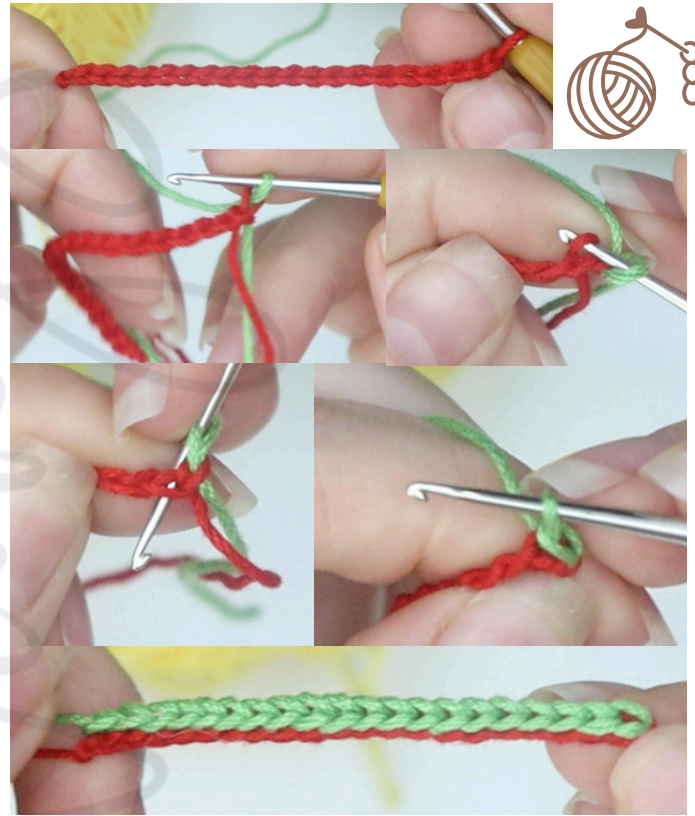

For the center detail of the dress, I used 1mm thick yarn with a 1.5mm hook. The color order is red, green, yellow, brown, and black. Start with a slip knot and chain 20 in red. Then, make an extra chain, this time pulling through the green yarn. Work 20 slip stitches in the loop that forms on the back of each red loop. When finished, cut the loop, leaving enough length to secure it to the dress.

[link to the video](#)

Please note that for each subsequent color, you must start on the back loop indicated in the image, first pulling out the loop. Then, slip stitch the loops by pulling the back loops in the traditional way. Repeat this process for each color. For a better understanding, I recommend watching the video.

Add a small piece of Velcro to the back to close the dress.

SHOES (X2)

Start with 1 slip knot.

Make sure to attach this piece as centered on the dress as possible. Bring the strands to the inside and glue the center together for extra hold. Inside the dress, tuck the remaining strands as far as possible.

When you finish row 8, cut the yarn (no need to leave it long). For the next row, start at the sixth stitch of the previous row, counting backward. Insert your hook in that stitch and pull through the loop to begin.

This shoe is custom-made, so to fit it on your foot, you'll need to stretch the fabric slightly with your fingers. Don't worry, the fabric won't be damaged. Then, add the fringe just as you did on the dress; this time, there will be three layers.

Although, if you prefer, you can also use real or artificial feathers... it's all a matter of creativity!
